# Macy's, Inc. Reports Third Quarter 2020 Results

NEW YORK--(BUSINESS WIRE)-- Macy's, Inc. (NYSE: M) today reported results for the third quarter of 2020.

"Macy's, Inc. third quarter results reflect solid performance across all three brands – Macy's, Bloomingdale's and Bluemercury. Our results were driven by disciplined cost management, strong execution by our colleagues and an early start to the holiday shopping season," said Jeff Gennette, chairman and chief executive officer of Macy's, Inc. "Customers shopped our brands across all channels in the third quarter and responded well to our expanded fulfillment offerings, such as curbside, store pickup and same-day delivery. Our digital business delivered strong growth and sales in our stores continued to recover. Customers have shifted their spending to casual apparel and categories they can enjoy as they stay at home. Several of these categories, including home furnishings, jewelry and fragrance, have generated double-digit sales growth compared to last year."

"Looking to Holiday 2020, we know this year is different. We are committed to bringing the joy of the season to America as we do every year. From next week's Thanksgiving Day Parade to reimagined family gatherings, we will help our customers and their families celebrate in style. We have the right gifting assortment with newness from value to luxury, and our expanded fulfillment options allow customers to shop safely and conveniently, in store or online," continued Gennette. "We continue to watch the resurgence of COVID-19 and its potential impact on our business. Our teams are executing well and have shown the flexibility and agility to adjust plans and provide a great omnichannel experience to our customers."

### **Third Quarter Highlights**

- Positive EBITDA one quarter sooner than expected.
- Strong liquidity position with approximately \$1.6 billion in cash and approximately \$3 billion of untapped capacity in the company's asset-based credit facility.
- Digital sales grew 27% over third quarter 2019. Digital sales penetrated at 38% of total owned comparable sales.
- Comparable sales down 21.0% on an owned basis and down 20.2% on an owned plus licensed basis, due to continued stores recovery and continued growth of digital business.
- Inventory down 29% from third quarter 2019. The company exited the quarter in a clean inventory position.
- Gross margin of 35.6% compared to 23.6% in the second quarter of 2020, an improvement of approximately 12 percentage points. The improvement was driven by disciplined inventory management, better sell through of both full-price and clearance merchandise and lower clearance markdowns.
- Selling, general and administrative ("SG&A") expense of \$1.7 billion, down \$476 million from third quarter 2019, illustrating efficient expense management and improved colleague productivity in stores.
- Diluted loss per share of \$(0.29) and Adjusted diluted loss per share of \$(0.19).

Consolidated Financial Statements (Unaudited)

Notes:

- (1) As a result of the seasonal nature of the retail business, the results of operations for the 13 and 39 weeks ended October 31, 2020 and November 2, 2019 are not necessarily indicative of such results for the fiscal year. Certain reclassifications were made to the prior period's amounts to conform with the classifications of such amounts in the most recent period.
- (2) The 39 weeks ended October 31, 2020 also include non-cash impairment charges totaling \$3.2 billion, which consist of a \$3.1 billion goodwill impairment charge and an \$83 million impairment charge on long-lived tangible and right of use assets.

- (3) The income tax benefits of \$126 million and \$1.0 billion, or 58.1% and 19.6% of pretax loss, for the 13 and 39 weeks ended October 31, 2020 reflect a different projected benefit rate as compared to the company's federal income tax statutory rate of 21% due to the carryback of net operating losses as permitted under the CARES Act. For the 39 weeks ended October 31, 2020, the benefit of the available carryback of net operating losses was offset by the impact of the non-tax deductible component of the goodwill impairment charge and additional income tax expense associated with the deferred tax remeasurement recognized during the first quarter of 2020.
- (4) Gross margin is defined as net sales less cost of sales.
- (5) Restricted cash of \$73 million and \$50 million have been included with cash and cash equivalents for the 39 weeks ended October 31, 2020 and November 2, 2019, respectively.

### Important Information Regarding Non-GAAP Financial Measures

The company reports its financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, management believes that certain non-GAAP financial measures provide users of the company's financial information with additional useful information in evaluating operating performance. Management believes that providing supplemental changes in comparable sales on an owned plus licensed basis and changes in comparable sales on an owned plus licensed basis, which includes adjusting for growth in comparable sales of departments licensed to third parties, assists in evaluating the company's ability to generate sales growth, whether through owned businesses or departments licensed to third parties, and in evaluating the impact of changes in the manner in which certain departments are operated. Earnings (loss) before interest, taxes, depreciation and amortization (EBITDA) is a non-GAAP financial measure which the company believes provides meaningful information about its operational efficiency by excluding the impact of changes in tax law and structure, debt levels and capital investment. In addition, management believes that excluding certain items from EBITDA, net income (loss) and diluted earnings (loss) per share that are not associated with the company's core operations and that may vary substantially in frequency and magnitude from period-to-period provides useful supplemental measures that assist in evaluating the company's ability to generate earnings and to more readily compare these metrics between past and future periods.

Non-GAAP financial measures should be viewed as supplementing, and not as an alternative or substitute for, the company's financial results prepared in accordance with GAAP. Certain of the items that may be excluded or included in non-GAAP financial measures may be significant items that could impact the company's financial position, results of operations or cash flows and should therefore be considered in assessing the company's actual and future financial condition and performance. Additionally, the amounts received by the company on account of sales of departments licensed to third parties are limited to commissions received on such sales. The methods used by the company to calculate its non-GAAP financial measures may differ significantly from methods used by other companies to compute similar measures. As a result, any non-GAAP financial

measures presented herein may not be comparable to similar measures provided by other companies.

Notes:

- (6) Represents the period-to-period percentage change in net sales from stores in operation throughout the year presented and the immediately preceding year and all online sales, excluding commissions from departments licensed to third parties. Stores impacted by a natural disaster or undergoing significant expansion or shrinkage remain in the comparable sales calculation unless the store, or material portion of the store, is closed for a significant period of time. No stores have been excluded as a result of the COVID-19 pandemic. Definitions and calculations of comparable sales may differ among companies in the retail industry.

(7) Represents the impact of including the sales of departments licensed to third parties occurring in stores in operation throughout the year presented and the immediately preceding year and all online sales in the calculation of comparable sales. The company licenses third parties to operate certain departments in its stores and online and receives commissions from these third parties based on a percentage of their net sales. In its financial statements prepared in conformity with GAAP, the company includes these commissions (rather than sales of the departments licensed to third parties) in its net sales. The company does not, however, include any amounts in respect of licensed department sales (or any commissions earned on such sales) in its comparable sales in accordance with GAAP (i.e., on an owned basis). The amounts of commissions earned on sales of departments licensed to third parties are not material to its net sales for the periods presented.
